

BBA TOP COLLEGES

1. IPM [IIM Indore]

Get straight into IIM right after Class XII

Dreaming of getting into IIM? What if you could get in right away without having to finish your bachelor's degree first. Well, go ahead, why not!

The Indian Institute of Management-Indore offers a five-year integrated programme in management. This unique program aims to meet the aspirations of young students to become management professionals.

Currently, IIM Indore is the only IIM offering this five-year integrated programme (BBA+MBA). The program is for students who have passed out class XII / Higher Secondary or equivalent from various schools in India. This 15-term program is spread over 5 years with 3 terms a year. Each term is for 3 months.

However, the five-year programme provides no exit options. Unlike Delhi University's four-degree course structure which has several exit options, IIM Indore's IPM course has mid-way exit option for candidates to walk away with a graduation degree after 3 or 4 years.

The first batch of IPM graduated in 2016 with an extremely encouraging campus placement record. The batch of 106 students bagged offers from recruiters like Credit Suisse, Deloitte, Nomura, JP Morgan, HDFC, IndusInd Bank, IBM,

ICRA Management Consulting, Tata Sky, UAE Exchange among others. The average salary stood at Rs 11.96 lakh per annum
